CHAPTER 1 — INSTALLATION

1.1 Before Installation

Before starting work with any wiring, please wait 90 seconds after turning the Ignition to the OFF position and disconnecting the battery's negative (-) terminal. It ensures that no SRS airbag faults are triggered during the installation when disassembling the vehicle's panels and wiring connections for the VLINE module installation.

Please review the entire manual to familiarize yourself with the VLINE module and the installation requirements before installing and using the unit.

1.2 Tools

Have tools ready for disassembling the dashboard panels to remove the stereo.

You will need some basic stereo removal and installation tools - plastic prying tools, a Phillips head screwdriver, a 10mm socket and a ratchet. Additional tools may be required depending on vehicle and installation preference.

1.3 Vehicle Installation

Each model vehicle disassembles differently. Removing the stereo and

wiring installation requires special technical skills and experience. If you feel uncomfortable installing, please consult with your local car audio shop or installation professional for instructions or assistance if necessary.

Use the proper tools to remove the factory stereo and display from the dash cavity.

It may be necessary to disconnect items surrounding the stereo and display to remove them and gain access to the back of the stereo to make your connections.

1.4 Safety Guidelines & Appropriate Use

By using VLine you agree:

- to operate VLine only when there are safe driving conditions;
- to follow any applicable state and traffic laws;
- to keep an eye on the road at all time while driving;
- do not attempt to play video (such as YouTube) on a display while the vehicle is in motion;
- do not use VLine without running the engine for the extended period of time as it can drain the battery.

Do not use Vline in a manner that would distract the driver or that may otherwise cause injury or death to vehicle occupants or bystanders.

IT IS ILLEGAL IN MOST STATES OF THE UNITED STATES AND MAY BE ILLEGAL IN OTHER JURISDICTIONS FOR ANY TELEVISION OR OTHER VIDEO DISPLAY, STREAM, TRANSMISSION OR BROADCAST TO BE VISIBLE TO THE DRIVER WHILE THE VEHICLE IS IN MOTION. YOU AGREE NOT TO USE ANY VISUAL COMPONENT OF VLine WHILE IN CONTROL OF A MOVING VEHICLE WHERE DOING SO WOULD BE ILLEGAL OR DANGEROUS TO VEHICLE OCCUPANTS OR BYSTANDERS. DOING OTHERWISE CAN LEAD TO SERIOUS INJURY OR DEATH TO YOU AND OTHERS. PLEASE FIND A SAFE PLACE TO PARK AND ENGAGE THE PARKING BRAKE BEFORE VIEWING ANY VIDEO DISPLAYS, STREAMS, TRANSMISSION, OR BROADCAST AVAILABLE THROUGH VLIN.

Connect supplied video cable GVMF to the factory display

Locate the BLUE display port on the rear of the car stereo display.

If the port is empty, plug-in supplied video cable (GVMF) into the port and leave the female portion of the cable with nothing attached.

If there is a cable plugged in, disconnect that cable (typically blue). Then plug in supplied Y cable and reconnect the disconnected cable to the female plug of the supplied GVMF cable.

Ensure to connect the GVMF video cable to the back of the factory display and not the back of the stereo. If you connect the GVMF cable to the back of the stereo, the VLine will not show up on the screen!

Warning: Do not pinch or hard bend the GVMF video cable, as it will affect the video signal. Make sure there are no hard bends near the GVMF cable connect-
or to the VLine, and allow enough space around it.

Connect VLine Interface cable to the factory headunit

Locate the 59-pin and 16-pin connectors at the back of the stereo, as shown in the illustration on the next page. Unplug what is connected and plug in supplied power interface cable (MCFLEX7T) into both 59-pin and 16-pin on the back of the stereo. Connect what was unplugged into the female portion of the harness. See the illustration on the next page.

Power Audio Connectors

Connecting to the VLine

Route the unused ends of the GVMF and MCFLEX7T cables to the VLine module and connect them to the correctly labeled ports.

Using the factory microphone

VLine will use a factory microphone for its operation. Connect the 3.5mm male connector from Power Interface Cable (MCFLEX7T) to the microphone port of VLine (see p. 9 for reference).

No additional steps are needed to connect or operate VLine with the vehicle factory microphone. Follow the guidelines in the user manual.

Adjusting the microphone gain for CarPlay® or AAuto®

1. Go to the VLine home screen, and tap on three horizontal lines in the upper left corner of the screen. You will get into Settings Menu.
2. While in Settings, scroll down to the bottom of the screen.
3. Hit AUTO on the screen to automatically adjust the microphone gain.
4. Follow the instructions on the screen and adjust the microphone gain. We recommend setting the microphone gain to 45.

Routing the GPS antenna

The GPS antenna module is magnetic and supplied with double-sided tape. You can mount it to the top of the dashboard or outside of the vehicle, whichever you prefer. We recommend mounting it inside the vehicle on the passenger side of the dashboard. Ensure no metal parts above the antenna block the reception. Do not leave it in the glove box or inside the dashboard.

Plug the GPS antenna into the Camera AV port of the VLine unit. If you need to use the VAUX RCA cable, carefully disconnect the GPS antenna from the small moxex extension, and plug the VAUX cable instead, per the instructions provided with VAUX. Please do not break the GPS antenna when unplugging it from the moxex extension.

Testing the VLine Operation

Test the VLine operation before mounting the dashboard back.

WARNING: Ensure to reconnect all unplugged connectors to the vehicle before cycling the ignition. Cycle the ignition and press the MEDIA button to enter AUX mode to enter VLine mode.

Ensure the VLine appears on the screen and all factory functions, such as climate controls, reverse camera, and AM/FM stereo, are working. You can mount the dashboard back.

Installation Troubleshooting

1. There is no VLine on the display, or the display is black.

Check the GVMF cable to ensure you connected it at the back of the LCD display, not at the back of the stereo. Ensure you reconnect the initially connected display cable to the VLine GVMF female end.

2. The display is “flashing” or “flickering”.

Ensure there are no hard bends in the GVMF video cable, and it is installed away from the metal parts in the vehicle. Try to re-route the GVMF cable.

Mounting the VLine Module

Mount the VLine main module in an easily accessible location, such as the glove compartment, for easy access to the USB ports and to upgrade the firm-ware on the VLine module. **Do not leave the unit inside the dashboard**, as it can damage the unit and its Bluetooth antenna and affect the Bluetooth / Wifi reception.

Understanding VLine ports

USB1

iPhone connection

Any other USB device (Keyboard / Mouse)

USB2

USB flash drive

Any USB device (Android, Keyboard / Mouse)

MicroSD

Insert microSD card (*pin side up) to increase storage space for Vline (up to 128GB supported). The microSD should be formatted FAT32. File system format exFAT and NTFS are not supported.

Pin Side Up

HDMI IN

HDMI input connection to connect external video sources.
(add plugin to VLine main screen to use the feature)

HDMI OUT

HDMI Output connection to connect external displays. The HDMI Output will match the VLine's video feed and resolution, be sure your external display can handle those properly.

MIC

Microphone input, connect a 3.5mm mono microphone.

CHAPTER 2 — GETTING STARTED

2.1 Initializing

After connecting the VLine module to the stereo, an ignition cycle will have to be performed for the stereo to discover the VLine and allow it to self-configure.

To INITIALIZE:

1. Put the ignition switch to “ACC” or “ON” position
2. Wait up to 5 seconds
3. Put the ignition switch to OFF”position
4. Wait 1 minute
5. Turn the ignition switch back to ACC”or ON”position
6. Press the MEDIA button and enter the AUX mode of the stereo, to get to the VLine mode.

IMPORTANT STEPS TO PERFORM AFTER THE INSTALLATION!

Turning OFF Auto Screen Change in the Factory Settings

For VLINE mode to function correctly, the “Auto Screen Change” option in the Lexus infotainment system needs to be turned “OFF”.

If this function is not turned off while using the VLine, the image will switch automatically to factory GUI screens on its own after 10-15 seconds have passed.

To turn this function OFF:

1. Press MENU button > then go into SETUP > select GENERAL
2. Scroll down until you see option line AUTO SCREEN CHANGE.
3. Select OFF for AUTO SCREEN CHANGE. Make sure to hit SAVE.

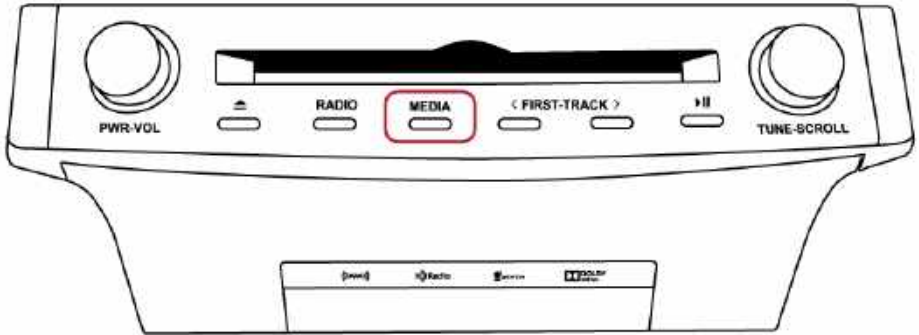

2.2 Functions

The GROM VLINE emulates the factory AUX mode of the stereo.

No factory functions of the stereo will be disabled. Factory Bluetooth, Navigation, Radio and CD player will remain functional.

Selecting VLINE mode:

Press the MEDIA button and access the **AUX mode** of the stereo to enter into VLINE interface mode.

Track selection in VLINE Mode

Track selection can be done with the SEEK TRACK ^ and v buttons on the steering wheel controls. No track selection from the stereo is available.

Adjusting Audio Bass, Treble, Balance/Fade for VLINE Mode

Use the Factory UI icon to get to the factory UI and adjust the sound settings. While in the VLine VL2 main screen, press the empty PLUS sign and go to Shortcuts --> Factory UI. Press on the Factory UI to get the shortcut icon to the main VLine screen. Tap the Factory UI icon, and the stereo will switch from the VLine interface into the factory AUX interface. While in the factory AUX interface, you can adjust the audio settings.

Press FM and then MEDIA --> AUX on the stereo to switch back into the VLine VL2 interface mode.

2.3 Android Auto

Android Auto is available wireless or via USB.

2.3.1 For USB connection: attach an Android phone to one of the USB ports on VLine VL2. Download the Android Auto app on your phone, grant all permissions, and allow all notifications. Use the Android Auto plugin on VLine to enter Android Auto. If you experience problems connecting, try using a different, shorter, higher-quality USB cable.

See video: <http://bit.ly/vline-android-auto>

2.3.2 For wireless connection: on the VLine UI, go to Settings --> Connected Devices --> Click on Bluetooth and Pair New Device

1. Then go to the Bluetooth settings on your Android phone. Tap "Pair New Device" and wait for VLine2 to appear. Hit pair and check "Allow access to your contacts and phone history."

2. On the VLine screen, you will see the same pop-up. Check to allow the "access to your contacts and phone history" as well, and hit pair on both - VLine and your phone.

3. Go back to VLine UI main screen and hit the Android Auto icon. Your phone is listed at the bottom of the Android Auto settings. Tap on it to connect.

See video: https://bit.ly/wireless_aa

2.3.3 Android Auto phone calls

VLine does not support phone calls on Android Auto. Use the factory phone system to connect to the phone calls. Pair and connect your phone's Bluetooth to VLine for Audio/Media and to the factory Bluetooth for phone calls. You can accept, reject or initiate phone calls on the Android Auto screen.

User Manual

Please refer to the user manual included with your purchase regarding the next steps required to set up your VLine Infotainment System.

Location and traffic data provided by GROM Product is for basic navigational purposes only and is not intended to be relied upon in situations where precise location information is needed or where erroneous, inaccurate or incomplete location data may lead to death, personal injury, property or environmental damage. Real world traffic restrictions, advisories and conditions are always more important than guidance given by third party navigation/mapping data providers. Neither GROM Audio nor any of its content providers, guarantees the availability, accuracy, completeness, reliability, or timeliness of traffic information, navigation, or location data provided by the GROM Product. Always exercise the caution and common sense when using and relying on the navigation, location, maps and traffic data with GROM Product.

By using GROM Product you acknowledge that the maps, location, navigation and traffic data maybe inaccurate or outdated. You agree to hold GROM Audio harmless from any claims caused by inaccurate maps, location, navigation and traffic data. You further agree to use maps, location, navigation and traffic applications when it is safe to the driver, vehicle occupants and bypassers. GROM Audio is not responsible for any mobile data charges resulted from using GROM Product.

OTHER PROVISIONS

A. INDEMNIFICATION OF GROM AUDIO, ITS AGENTS AND EMPLOYEES. By Purchasing, Installing and Using the Products, You, the End- User, agree to indemnify, defend and hold harmless, GROM AUDIO, and its Affiliates, Directors, Officers, Agents and Employees from any Liabilities, Damage, Loss, Claim and Expense (including reasonable Attorney's Fees) arising out of the installation and use of the GROM Product.

B. EXCLUSION OF REMEDIES. TO THE MAXIMUM EXTENT PERMITTED UNDER APPLICABLE LAW, IN NO EVENT WILL GROM AUDIO OR ITS EMPLOYEES, DIRECTORS, OFFICERS AND OTHER REPRESENTATIVES BE LIABLE TO YOU OR ANYONE ELSE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, EXEMPLARY OR CONSEQUENTIAL DAMAGES OF ANY KIND ARISING OUT OF OR IN ANY WAY RELATING TO THIS AGREEMENT, INCLUDING YOUR USE OF OR INABILITY TO USE THE VLINE OR ANY CLAIM MADE BY A THIRD PARTY (INCLUDING, WITHOUT LIMITATION, LOSS OF REVENUE, PROFITS, DATA OR GOODWILL OR OTHER COMMERCIAL OR ECONOMIC LOSS) REGARDLESS OF THE CAUSE OF ACTION ON WHICH THE CLAIM IS BASED, EVEN IF GROM AUDIO HAS OR YOU HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR CLAIM.

C. GOVERNING LAW. THIS AGREEMENT and all Purchases hereunder shall be governed by, and construed under the laws of the State of California, without regard to conflicts of law rules. You agree that the Courts of California shall have exclusive jurisdiction over the Parties, for all disputes.

D. FORCE MAJEURE. GROM shall not be liable for any delay or failure in performance caused by or resulting from acts of God, fire, flood, storms, earthquakes, tornado, other acts of nature, any accidents, riots, wars, government intervention, embargoes, strikes, labor difficulties, equipment failures, or any other causes beyond the control of GROM AUDIO. Quantities are subject to availability.

E. ENTIRE AGREEMENT. These terms and conditions constitute the entire and exclusive agreement between you, the End-User and GROM AUDIO, concerning the Products, and your purchase hereunder, and supersede all statements or other agreements, whether oral or written, between you and GROM AUDIO. No change in this Agreement shall be effective, unless agreed to in writing by both, you, the end-user and GROM AUDIO.

GROM AUDIO COMPATIBILITY DISCLAIMER

GROM Audio strives to provide you with a high-quality product while

maintaining competitive pricing. We continuously work to test and develop our product, however, in some cases; our interfaces may not be compatible with your application. Due to the wide range of electronics / anomalies found in car stereos, compatibility and/or controls may vary. Should you experience incompatibility issues, you may contact us via our support page. GROM Audio also carries a standard 30 day return policy.

ENGINE/SYSTEM NOISE DISCLAIMER

Engine / system noise may occur in some installations and is not easily predictable. Should noise occur with your system, we will take commercially-reasonable steps to diagnose the source of the noise. Depending on the situation, noise suppressors and filters may need to be installed in order to correct the problem. Due to the nature of electronics, noise may not be correctable in all cases.

IF YOU DO NOT AGREE WITH THESE TERMS AND PURCHASED DIRECTLY FROM GROM AUDIO PLEASE RETURN THE GROM PRODUCTS IN ORIGINAL CONDITION AND IN ORIGINAL PACKAGE WITHIN FIVE (5) BUSINESS DAYS OF RECEIPT OF THE PRODUCTS FOR A FULL REFUND OF THE PURCHASE PRICE OF GROM PRODUCTS (SHIPPING COSTS NON REFUNDABLE).
